

### Explanation of the Rotary District 7510 Card Swap Fellowship

The Card Swap Fellowship initiative is a way to "Grow our District through Fellowship" initiated by District Governor Charles Minton. **The 2016-17 Presidents that attended PETS 1 have been given in-depth explanation and training on how this concept should be carried out, while those who missed PETS 1 may not be aware of this program.**

The idea is to have 2 clubs work together on a project during this Rotary year, have it **completed by March 15, 2017**, then create a storyboard for presentation and display at the District Conference May 5-7 2017. The project may be a new project that both clubs agree to or it may be an existing project that one club is already performing. It does not have to be a fundraiser but it may. Make it as large or modest as the clubs agree, but make it fun and create fellowship between the clubs. It is suggested that the clubs have 2 joint meetings of the full clubs, 1 in each others meeting place; this will give each club 2 "speakers" during this year. Be sure to invite your Assistant Governors.

Use this as an opportunity to learn/teach each other and use it to inspire Rotary fun and growth through fellowship.
